

KALUZA

Analysis Software

Sophisticated Data Analysis, Simplified

Kaluza Analysis Software from Beckman Coulter employs cutting edge technology for fast, efficient real-time analysis of complex multicolor files.

It's easy to learn, easy to use, and represents true innovation in data manipulation and analysis.

The result: your flow cytometry research can find that extra gear to get you to your objective sooner.

KALUZA

Kaluza Means Speed

- Analyze millions of cells – rather than thousands
- Work with multicolor, multi-parametric data sets in real time
- Use compensation wizard to generate compensation matrices
- Adjust compensation quickly and accurately
- Create gates and access editing tools with innovative radial menu that keeps mouse clicks to a minimum
- Automatically process up to 2,000 data sets using a single protocol with batch analysis feature

Kaluza Means Ease

- Simple user interface eliminates the intimidation factor of complex software
- Analyze multiple files with easy drag and drop into intuitive analysis list
- Visualize and analyze multicolor data with revolutionary multiparametric plots:
 - Tree plot reduces multiple plots into one display and enables analysis of events in a single view
 - Radar plot reveals clusters with multidimensional view, and enables fast, easy pattern recognition analysis
 - Gate and analyze in multiple dimensions on radar plots
- Reconfigure your workspace with auto-layout feature for easy plot creation and sizing, zoom in/out, and guided drag and drop
- Merge multiple files for more accurate measurement of rare populations
- Generate user-defined statistics and customized data set labels using Excel-like functions and formulas
- Make a mistake? Undo it, with unlimited undo!

Kaluza Means Efficiency

- Integrate Kaluza into your existing lab tools with support for a wide variety of FCS files
- Save and store large data files for fast refresh and efficient retrieval
- Operate on either networked or standalone computers, or on supercomputers with NVIDIA Tesla graphics card
- Have data flow seamlessly from acquisition to analysis
- **Join the Kaluza community:** User forum to share stories and ask questions

Speed Up & Simplify Your Data Analysis

Flow cytometry science may be complex, but it doesn't have to be hard.

Kaluza makes it easy—and fast—to spend more time on research and discovery and less time driving through complex data files.
