

CALL FOR POSTERS

Plan now to have your poster included in the international Molecular Diagnostics 2016 Virtual Event

We are pleased to announce the Call for Posters for the Inaugural Molecular Diagnostics Virtual Conference, the premiere venue for scientists, technologists, and professionals to discuss and present the newest advances in molecular diagnostics testing. Attend this online event at no charge.

We invite abstracts for posters that focus on the following tracks: **Regulations in Molecular Diagnostics Clinical Laboratory Testing; Precision medicine in Oncology and Applications for Liquid Biopsies; New Approaches to Genomic Health: NGS, Exosomes, and Molecular Microbiome Patterns; Molecular Diagnostics Applications in Point of Care.** Visit the [Event Overview](#) to learn more about the topics covered.

SUBMISSION:

Submission is free. Please see our [Submission Guidelines](#) and learn more about participating in a virtual poster session. This virtual poster session allows previously presented posters from within the last year in addition to new and original data. Posters will be published and live during the conference April 6-7, 2016, and will remain accessible in the virtual environment during the on demand period. [Learn More](#)

DEADLINE:

The deadline for electronic submission is 5:00pm PT, Wednesday, March 16, 2016.
